# Simplicity at Its Best.

## Easy to Use

- The extra large display is easy to read and simple to navigate with just a touch
- Quickly adjust room temperatures and programmable schedules

## Easy to Install

- 2 or 4 wire installations are simple and quick to wire
- Install as a communicating thermostat in a system or as a stand alone piece

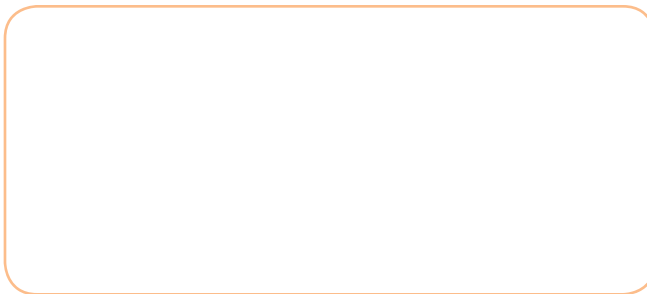

## Designed for Better Performance and Energy Savings

- Maximize energy savings throughout the whole building while you're "Away"
- tekmarNet® communication provides indoor temperature feedback to the main control
- Measure indoor, floor and outdoor temperatures
- An optional floor sensor allows precise heating of radiant floors and protects from overheating the floor

## Find your Local tekmar Representative

If you need assistance finding a local wholesaler or contractor; help with your design and commissioning; or are looking for information on products and purchasing; contact your local representative and they will be happy to assist you.

**tekmar**®  
Better Control. Better Systems.

tekmar's newest touchscreen thermostat is designed to enhance your comfort with a simple touch.

## Discover the Benefits of Touchscreen Technology

Imagine with just one touch you have the control to create your perfect living space. Imagine reading the current outdoor temperature right from the display as you prepare for your day. Imagine your radiant floors being toasty warm when you want and the temperature in the room always comfortable. Imagine with one touch you can set your heating system to conserve energy while you're away and it will automatically return to normal settings in time for your arrival home. With a tekmarNet<sup>®</sup> Thermostat, you can discover the benefits of comfort and convenience.

## Designed for Simplicity and Convenience.

The large, easy to read backlit display allows you to quickly adjust 7-day programmable schedules and room temperatures to optimize comfort, conserve energy and save money.
